Dear Students:

We believe access to health care through affordable insurance to be critical to students' academic success and well-being. We are committed to ensuring the availability of basic health care to all students by offering a student health insurance plan that will help eliminate obstacles that may impede the student's academic goals. It is important that you consider this student health insurance plan or one of your own choice.

If you have other medical insurance coverage, please review the coverage to assure that it is adequate. Ask yourselves the following questions before you waive this student insurance plan:

- Is your current insurance enough? Can you be treated in the area of your college location? Do you have PPOs or HMOs that require you to be treated only around your permanent address? Are you planning to play intercollegiate sports and does your policy cover you for that purpose? Are you planning a spring break or any other type of travel and will your current policy cover you in those areas?
- Could you be aging off or ineligible to continue coverage under your parent's policy soon? Most insurance plans have age limits for dependents. Check with your current company and find out what are the age or eligibility limitations. Don't be caught without coverage.

If you have any doubts about the above questions, please check with your current health insurance carrier and get the answers you need so that you can make an informed decision about protecting yourself with medical coverage while undertaking your education. The purpose of student health insurance is to keep students in school so that they can complete their education and move on to careers without incurring huge medical debt.
