

Tabor College

Office of Student Financial Assistance

General Financial Aid Policies

- Students must maintain satisfactory academic progress (SAP), both in terms of grade point average attained and credit hours earned, in order to retain financial aid eligibility. Students are responsible for consulting the Tabor College Catalog to obtain more specific information about grade point standards and pace requirements for maintaining SAP. SAP policies are in the Academic Catalog.
- Tabor Scholarships and Awards require full time enrollment.
- Students may request a review of aid eligibility at any time if unusual circumstances affect the family's financial situation. Upon receiving the written request and submission of supporting documentation, aid eligibility will be recalculated and the financial aid offer may be revised, if additional funds are available.
- Students are required to report any additional aid received, regardless of the source. Receipt of additional aid may result in an adjustment to the student's award offer. If aid eligibility has already been met, it may be necessary to reduce other aid.
- Disbursement of awards from sources outside of Tabor College is dependent upon receipt of funds from those sources. Students are responsible for obtaining any required applications and requesting any documentation from the appropriate offices which may be required for continuation of these awards.
- If a student withdraws from all classes before the end of the semester, they may be entitled to a partial refund. If a student has received federal funds (Grants and/or Loans), Tabor College must abide by the federal refund policy, as stated in the Tabor College Catalog.
- If the student has a credit balance on their account after charges have been posted and aid has been applied, they may request a refund through the business office. No refund checks will be issued for anticipated credit balances.
- Aid is applied first to tuition, then to residential life charges, and finally to any other charges assessed.
- Changes in housing status, i.e. living off campus, could result in changes to a financial aid offer. Students must inform the Office of Financial Aid of any housing changes from campus housing to off campus.
- Consumer Information: crime statistics, information on campus security, and descriptions of substance abuse awareness and prevention programs are in the Student Handbook & Calendar. Information about financial aid to participants in athletic programs are available from Institutional Research, the Athletic Office and Office of Financial Aid.
- It is the responsibility of the student to search out and find campus employment. Students are allowed to work up to 19.5 hours per week at minimum wage. Some areas of campus employment include but are not limited to; maintenance, library, cafeteria, or other campus positions given to the Student Success Office.
- Students who are convicted of an offense during a period of enrollment for which they received Title IV, Higher Education Act (HEA) Federal Student Aid (whether grants, loans or work-study), under any federal or state law involving the possession or sale of illegal drugs may lose their eligibility for any Title IV, HEA grant, loan, or work-study assistance. However, they do have the ability to have their eligibility re-instated. For more information, contact the Office of Financial Aid.
